The European Union Greenhouse Gas Emission Trading Scheme (EU ETS)

In January 2005 the European Union Greenhouse Gas Emission Trading Scheme (EU ETS) commenced operation as the largest multi-country, multi-sector Greenhouse Gas emission trading scheme world-wide.

The scheme is based on Directive 2003/87/EC, which entered into force on 25 October 2003.

Capacity Building for the Implementation of the EU-Emissions Trading Directive in new EU Member States

Capacity Building project's objective no.1 is to “Support the competent authority for the implementation of the ET Directive and its supporting legislation, in particular the MRG Decision”

Capacity Building project's objective no.2 is to provide concrete support to operators, especially SMEs ...
